Button Description

Device Buttons (VCR1, VCR2•LD, SAT•CABLE, AUDIO, TV)

Determines which device you are controlling. The VCR2•LD and SAT•CABLE buttons can be assigned to one of the two devices listed. For example, VCR2•LD can be assigned to either a VCR or a Laserdisc Player.

VCR Buttons (TV/VCR, REW, PLAY, FF, REC, STOP, PAUSE)

Use these buttons to control playback from a VCR or Laserdisc Player. Also used to record onto a VCR tape.

ENTER (Also SKIP for some RCA, GE, and ProScan TV's)

Use this button for two functions. Use as ENTER when programming using CODE SEARCH or when entering channel numbers for some TVs. Use as SKIP to look at other channels during commercial breaks. Press SKIP repeatedly to select the commercial time to skip. Change channels and TV will return to original channel when time runs out.

Channel and Volume (DISPLAY, VOL, CHAN, MUTE, PREV CH)

Use these buttons to control sound and channel changes.

Number Buttons (0-9)

Use these buttons to directly enter channel numbers for a TV, VCR and Cable Box or for accessing preset channels of an AM/FM tuner or enter disk and track numbers for a CD player. Also used for entering program code numbers from brand lists.

Menu Buttons (MENU•PROG, MOVE, -, +, UP, DOWN)

Use these buttons to adjust on-screen menu features and programming information.

Code Search Button

Programs devices by searching through brand codes. Use when code lists are not available or when the listed code does not work with your device. *See page 4.*

PIP Buttons (PIP, MOVE PIP, SWAP, FREEZE)

Use these buttons to adjust the Picture-in-Picture feature if it is available on your TV.

Setting Up Your Universal Remote

Place Batteries in the remote

1. Remove the battery compartment cover.
2. Place 4 AAA batteries as shown, matching the + and – end of each battery as indicated in the battery compartment.
3. Replace the cover.

Determine if your remote needs programming

Some RCA, GE and ProScan devices may already be preprogrammed.

1. Press the button of the device you want to control (for example TV).
2. If the device turns on, press another button to confirm (for example CHANNEL UP).
3. If the device you selected (TV) responds, you will not need to program the remote. If the device you selected (TV) does not respond, you will need to program the remote (See pages 4-5 for programming instructions).
4. Repeat steps 1-3 for other devices.

Programming Your Universal Remote

The remote may already be set-up to operate your brand of TV, VCR, Laserdisc, Satellite Receiver, Audio Equipment, or Cable Box. It is preprogrammed with the following codes: TV-000, VCR1-000, AUDIO-003, SAT•Cable Box-000, and Laser Disc Player-037. For brands that require programming, there are two ways to program: Using Code Lists or Code Search. Use Code Search if the code lists are not available or if the codes from the lists do not operate a device.

Programming a Device using **CODE SEARCH**

1. Manually turn on your device (TV, VCR, Laserdisc Player, Satellite Receiver, Cable Box or Audio Equipment).
2. Press and hold **CODE•SRCH**.

PRESS
& HOLD

3. Press and release the device button you want to set up (TV, VCR1, VCR2•LD, SAT•CABLE, or AUDIO).

4. Release **CODE•SRCH**.

RELEASE

5. Press **POWER** repeatedly until the device turns off (you may have to press up to 100 times).

6. Once the device turns off, press and release **ENTER**.

7. With the device on, press another button, for example **CHANNEL UP**. If the device responds, no further programming is required. If the device does not respond, repeat steps 1-7.

Programming Your Universal Remote

Programming a Device using CODE LISTS

- Find codes for each device and brand on page numbers shown below.

<u>Device</u>	<u>Page</u>
TV	12
VCR	13
LaserDisc Player	14
Satellite Receiver	14
Cable Box	14
Audio Equipment	15

- Press and hold the **TV**, **VCR1**, **VCR2•LD**, **SAT•CABLE**, or **AUDIO** button you want to set up. **SAT•CABLE** can be programmed to operate other Satellite Receivers.

- Enter the three digit code from the TV, VCR, Laserdisc Player, Satellite Receiver, Cable Box, or Audio code list.

- Release the device key.

- With the device on, press another button, for example **CHANNEL UP**. If the device responds, no further programming is required. If the device does not respond, repeat 2-4 using another code.

- Enter your device codes here for easy reference.

PRESS
& HOLD

RELEASE

TV CODE		
<input type="text"/>	<input type="text"/>	<input type="text"/>

VCR1 CODE		
<input type="text"/>	<input type="text"/>	<input type="text"/>

VCR2•LD CODE		
<input type="text"/>	<input type="text"/>	<input type="text"/>

SAT•CABLE CODE		
<input type="text"/>	<input type="text"/>	<input type="text"/>

AUDIO		
<input type="text"/>	<input type="text"/>	<input type="text"/>

Operating Your TV

Turning the TV On and Off.

1. Press **TV** to set the remote to control the TV (Most RCA, GE and ProScan models will only turn on when TV is pressed, not POWER.)
2. Press **POWER** to turn the TV on or off.

Change Channels on the TV

Press **CHANNEL UP** or **CHANNEL DOWN** to change channels on the TV or enter the channels as you would normally for your TV.

Use the buttons below to adjust features on your TV.

DISPLAY– Shows displays on the screen and clears menus from the screen.

MUTE – Switches the TV sound on or off.

PREV CH (PREVIOUS CHANNEL) – Changes back and forth between two channels. Select a channel using the number buttons and then select another. Press **PREV CH** to switch between the two channels.

DISPLAY

MUTE

PREV CH

If your TV has picture-in-picture, you may be able to use the following buttons to adjust PIP.

PIP (PICTURE-IN-PICTURE) – Turns the small picture on or off.

MOVE PIP – Moves the small picture to the next corner.

SWAP – Switches the channel in the small picture with the big picture.

FREEZE – Freezes or unfreezes the small picture.

You may want to experiment with the remote to determine all the buttons which will work with your TV.

Operating Your Cable Box

Turning the Cable Box On and Off.

1. Point the remote at the cable box and press **SAT•CABLE**.
2. Press **POWER** to turn it on or off.

Changing Channels on the Cable Box.

Press **CHANNEL UP** or **DOWN** to change channels on the cable box or enter the channel as you would normally for your cable box.

Operating Your Satellite Receiver

1. Point the remote at the Satellite Receiver, press **SAT•CABLE**, and follow the directions.

To Operate the Program Guide

1. Press **MENU•PROG**.
2. Press **1** to select Program Guide.
3. Move through the Program Guide with the navigation keys.
4. Make your selection by pressing **DISPLAY**.

Turning the Satellite Receiver On and Off.

1. Point the remote at the Satellite Receiver and press **SAT•CABLE**.
2. Press **POWER** to turn it on or off.

You may want to experiment with the remote to determine all the buttons which work with your Satellite Receiver.

Operating Your VCR

Turn the VCR On and Off.

1. Press **VCR1** or **VCR2•LD** to set the remote to control the VCR. (Most RCA, GE and ProScan models will only turn on when pressing VCR not POWER).

2. Press **POWER** to turn the VCR on or off.

Using the VCR function buttons.

1. Turn on the VCR.
2. Insert a tape in the VCR.
3. Press **PLAY** to start the tape.
4. Press **STOP** when you are finished.
5. Press **REW** to rewind the tape.
6. Press **PAUSE** to pause the tape.

Record one channel and watch another.

1. Press **VCR1** or **VCR2•LD** to set the remote to control the VCR.

2. Tune the VCR to the channel you want to record.

3. Press **REC** to start recording.

4. Press **TV/VCR**.

5. Press **TV** to set the remote to control the TV.

6. Press **CHANNEL UP** or **DOWN** to change channels on the TV.

7. To see the channel you are recording, tune the TV to channel 3 or 4 (same as CH3/4 switch on the VCR). Tune to 90, 91, or 92 for some RCA, GE or ProScan products.

Operating Your Laserdisc Player

Turn the Laserdisc Player On and Off.

1. Press **VCR2•LD** to set the remote to control the Laserdisc Player.

2. Press **POWER** to turn the Laserdisc Player on or off.

Using the Laserdisc Player function buttons.

1. Turn on the Laserdisc Player.
2. Place a disc in the Laserdisc Player.
3. Press **PLAY** to start the disc.
4. Press **STOP** when you are finished.
5. Press **PAUSE** to pause the disc.

You may want to experiment with the remote to determine all the buttons which work with your Laserdisc Player.

Operating Your Audio Equipment

Turn the Audio Equipment On and Off.

1. Press **AUDIO** to set the remote to control the Audio Equipment. (Most RCA, GE and ProScan models will only turn on when pressing AUDIO not POWER).
2. Press **POWER** to turn the Audio Equipment on or off.

Using the Audio function buttons.

You may want to experiment with the remote to determine all the buttons which work with your Audio Equipment.

Using the Menu Functions for RCA Televisions

RCA, GE, and ProScan televisions use three different menu systems. Read the following descriptions, and choose the one that matches your TV.

System 1: If you use **MENU**, **+**, and **-** buttons on your current remote, substitute them with **MENU•PROG**, and the **+** and **-** (arrow) buttons on this remote, and refer to your TV owner's manual for operating instructions. The remote is already set-up to operate this menu system. Program the remote with TV code 101.

System 2: If you use **MENU**, **CHANNEL UP**, **CHANNEL DOWN**, **VOLUME UP**, and **VOLUME DOWN** buttons on your current remote, substitute them with **MENU•PROG**, and the (arrow) buttons on this remote, and refer to your TV owner's manual for operating Instructions.

System 3: If you use **SETUP**, **VIDEO**, **AUDIO**, **+**, and **-** buttons on your current remote, substitute them with **MENU•PROG**, (up arrow), (down arrow), and the **+** and **-** (arrow) buttons on this remote, and refer to your TV owner's manual for operating instructions.

MENU/PROG = SETUP

UP = AUDIO

DOWN = VIDEO

The remote must be programmed with TV code 109. Refer to the procedure on page 5.

Using the Menu Functions for Other Televisions

You will have to experiment with the remote to determine the buttons which will work with your TV.

Operating Your TV/VCR Combo Unit

Some TV/VCR combination units may be controlled by using a combination of TV and VCR codes. For example, the Samsung TV/VCR combo unit may be controlled by both the Samsung TV code and the Samsung VCR code.

Special Operations

RCA, GE and PROSCAN Brand Devices:

Many of these devices (TVs and VCRs) will not need to be programmed. In the event that programming is required, the code search method is suggested. Note: With these brands, the device button (TV, VCR1, VCR2•LD, AUDIO) will usually turn the units on. The POWER button will only turn off the device, if you used the TV, VCR1 or AUDIO button to turn the unit on.

SCIENTIFIC ATLANTIC Cable Boxes:

This brand of cable box can be programmed using the code search method by using the **CHANNEL UP** key rather than **POWER** during Code Search. NOTE: The device must be turned on prior to beginning the code search. Once the device turns off, press and release **ENTER**.

In most cases this cable box can be turned on and off using the **CHANNEL UP** key not the **POWER** button. If the unit will not turn on using the **CHANNEL UP** key, then manually turn it on and only partial compatibility will be achieved.

JERROLD or GENERAL INSTRUMENTS Cable Boxes:

These units can be programmed using the code search method. In some cases, these devices will change channels during the code search. Continue until the unit turns off, then press and release **ENTER**.

ZENITH and OAK Cable Boxes

Some Zenith and Oak Cable Boxes require pressing **CHANNEL DOWN** rather than **ENTER** after numeric entry.

RCA HOME THEATRE™

THE ULTIMATE SIGHT AND SOUND EXPERIENCE IN YOUR OWN HOME

UNIVERSAL REMOTE Multi-Brand use

■ WORKS UP TO 5 VIDEO AND AUDIO COMPONENTS:

More versatile than competitive models. Replace up to 5 remote controls... 1 TV, 1 VCR, 1 VCR or Laser Disc Player, 1 Cable Box or Satellite Receiver and 1 Audio Component. Specially designed for home theatre. See the extensive brand list for coverage.

■ CODE SEARCH:

Makes set-up easy. Scans the entire code library to find the right code for your TV, VCR, Cable Box, Satellite Receiver, Laser Disc Player or Audio Component at the touch of a button.

■ ADVANCED PIP & MENU CONTROLS:

Control picture-in-picture and menu functions not available on most remotes.

■ DBS SATELLITE SYSTEM COMPATIBLE:

Preprogrammed to work with the Digital Satellite System.

■ TOLL-FREE CONSUMER HELPLINE:

1-800-316-8756
A customer service representative is ready to help with questions.

Requires 4 AAA Batteries
(Not Included)

THIS SYSTEMLINK™ 5AV
REMOTE CONTROL IS
COMPATIBLE WITH MOST
OF THE FOLLOWING BRANDS
(of infrared controlled components manufactured after 1989):
